

Dear Revox Partner,

Today we are providing you with the latest information on the availability and discontinuation of Revox products.

At certain times we have to make decisions regarding our product range. In doing so, we are also dependent on external circumstances and necessities.

Due to the situation in the supplier market, the availability of important components can no longer be guaranteed by some of our partners at short notice as agreed. In order to ensure planning security and good and fair customer advice, we have therefore decided to discontinue the Revox Scala S120 speakers and the TV Stand for **STUDIOART S100** Audiobar from our range.

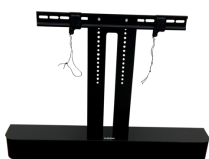

1.) Revox Scala S120

Only a few of the 2.5-way bass reflex speakers are still available in white and black. Orders for these will be delivered in the order in which they are received.

Order No: 108471600 white

108471700 black

Price: 2.750,- € / piece incl. VAT

2.) Revox TV Stand for STUDIOART S100 Audiobar

This product will not be reproduced and is no longer available. (Picture here with Audiobar)

NOTE:

Revox M51 Multiuser Module

A small number of the M51 Multiuser Module is still available and ready to order.

The M51 Multiuser Module enables an M51 to be integrated into the multiuser system. The CD player, FM tuner and analog M51 sources (I/O module) can be played in all rooms.

An M51 with Multiuser Module can be controlled via the Multiuser App without the M202 Ethernet interface.

The Multiuser Module requires the 5.1 Decoder Module MKII or MKIII with software version 2.01 in the M51.

Order no: 155106900

Price: 750,- € / piece incl. VAT

Orders for this will be delivered in the order in which they are received.

If you have any questions, please contact our sales team directly.

We look forward to continuing our good cooperation.
