

Dear Revox Partner,

We are extremely pleased to be able to inform you today about extensions to our Botanic range and new accessories. These extensions bring additional sales arguments that we would like to share with you. You will also find technical details and more detailed descriptions in this INFO-Letter.

Your
Revox Team

Revox Botanic

For an elegant, surprising and very sonorous musical experience - indoors and outdoors.

A sounding plant pot. Easy to use and connect. For indoor use, e.g. in the living room or entrance area, and outdoor use, e.g. on the terrace or by the pool. Thanks to powerful and invisible INVISIBLE speakers from Revox, the sides of the plant pot are used for impressive sound reproduction. The high-quality plant pot is handmade from fiberglass and is stable, dimensionally stable and weatherproof thanks to the special material properties. The Botanic speaker can be operated with any conventional amplifier. The optimum reproduction is achieved with DSP amplifiers from Revox.

Now as a special audio solution in the private environment or in the hotel and catering industry as well as in public buildings.

The advantages at a glance:

- impressive sound reproduction
 - very special and individual audio solution
 - handmade
 - easy to use and connect
 - for indoor and outdoor use
 - weatherproof
 - wide dispersion characteristics
 - can also be operated with any conventional amplifier
 - optimum reproduction is achieved with Revox DSP amplifiers
-

Range Extension

We have extended the Botanic range to include a number of new versions to allow you to customize the sound reproduction both indoors and outdoors. The 50x50x50 cm size is now available as a version with one speaker or with two speakers, either positioned around the corner or opposite each other. The larger Botanic 70x70x70 cm is available with two speakers across the corner or opposite and the version with four speakers.

The right version is therefore available for every situation.

Info Sheet Botanic

The Botanic info sheet contains the most important sales arguments and information for our Botanic speakers. You will also find an overview of the speaker arrangements and the resulting sound radiation for clarification.

You can find the Botanic info sheet as usual on our support page, the website or [here for download](#).

Installation Instructions

You can find tips and tricks for installing a Revox Botanic in the new installation guide, which is included with every product or can be downloaded from our support page. You will also receive:

- instructions for the various indoor and outdoor installations (keyword: water drainage holes)
- the connection situation is explained depending on the variant
- the cable assignment is explained depending on the variant
- General and net internal dimensions

➔ You can find this and other information in our newly designed **Botanic Installation Instructions**. You can find it as a PDF on our support page or [here as a download](#).

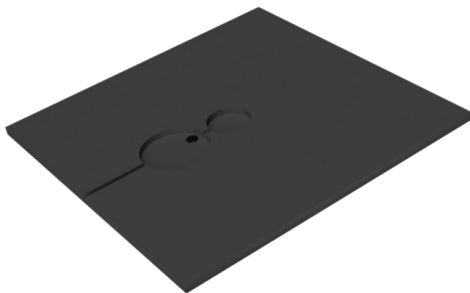

NEW Botanic Accessory: Floor Plate

The Botanic Floor Plate is a wooden base plate that is splash-proof thanks to a special lacquer finish. We recommend using it indoors or in a protected outdoor area.

It has a practical speaker cable guide that allows the cable to be laid neatly and out of sight.

There is also a cable grommet, which is sealed watertight with a plug ex works. This means that the Botanic Floor Plate is also suitable for installation above a floor box.

The reduced external dimensions of the base plate create a visual effect under the Botanic that makes the sounding plant pot appear to float.

Botanic Floor Plate 50	108465520	150,- EUR (incl. VAT)
Botanic Floor Plate 70	108465720	190,- EUR (incl. VAT)

➔ The Botanic Floor Plates will be available from September.

Website and Price List Updates

Due to the expansion of the range and for a better overview, we have divided the presentation of the Botanic speakers on the website into sizes 50 and 70. There you will also find the technical data sheets and further information.
